RE: Unimatic / E20010335

Please remove the following referral from your p-list:
"Revised RIW dated 4/23/09 in response to NOV."
I deleted this referral / entry in NJEMS.

Following my conversation with John Graham, we no longer need memos for the above referenced report. This morning, I discussed this in person with Bill Han. I know Terry is out today. However, on 10/2, Terry sent me an e-mail that he will begin his review on 10/5.

Please return the report to me and contact me with any questions.

Subject: Re: referral for Unimatic

got it thanks Terry. We no longer write approval letters for RIWs & to limit our hours billed to the RP we decided to pull the RIW from you and Bill. They agreed to our comments prior to the Rev. RIW & such tasks were included in the subject report.
